OS87 Bridge and Pavement Improvement Program, Oahu

Project Description:
This is an ongoing islandwide program for the system maintenance of highway bridges and pavements. The Special Maintenance Program (SMP) is a program that funds individual repair or maintenance projects that do not normally occur annually. SMP funds have funded resurfacing, pavement, and bridge preservation projects (System Preservation). Work may include bridge and/or pavement reconstruction, resurfacing, restoration, rehabilitation, and/or preservation. Yearly lump sum amounts represent total SMP State funding levels anticipated for the Oahu program. The current list of prioritized proposed SMP projects, for Oahu, has been posted on the OahuMPO website at: http://www.oahumpo.org/programs/tipcurrent.html. Qualified and priority SMP projects could receive federal funds should they become available.

Project Website: http://hidot.hawaii.gov/highways/other/other-related

Neighborhood(s): Various Locations

Estimated Total Project Cost: $237,800,000
(May include project costs outside of the 4-year TIP and 2 informational years.)

Project Sponsor: State of Hawaii (FHWA Funded)

Agency Responsible for Carrying Out Project/Phase:
Hawaii Department of Transportation

OS1 Castle Hills Access Road Drainage Improvements, Phase II

Project Description:
Construct a retention basin and/or other drainage improvements in the vicinity of Pookela Street, Kupohu Street, and Pilina Way in Kaneohe.

Project Website: None

Neighborhood(s): Kaneohe

Estimated Total Project Cost: $16,800,000
(May include project costs outside of the 4-year TIP and 2 informational years.)

Project Sponsor: State of Hawaii (FHWA Funded)

Agency Responsible for Carrying Out Project/Phase:
Hawaii Department of Transportation

OS2 Farrington Highway (Route 93), Bridge Rehabilitation, Ulehawa Stream Bridge

Project Description:
Rehabilitate the existing bridge to meet current design standards. The bridge will be widened, lengthened, have bridge railings installed that will redirect errant vehicles, have wider shoulders for pedestrians and bicycles, and be strengthened to accommodate present day vehicular loads. The rehabilitated bridge will provide a safer and more efficient facility to residents and visitors who utilize Farrington Highway in the vicinity of Nanakuli. The rehabilitated bridge will decrease the annual operation and maintenance costs for HDOT.

Project Website: None

Neighborhood(s): Waianae Coast

Estimated Total Project Cost: $13,400,000
(May include project costs outside of the 4-year TIP and 2 informational years.)

Project Sponsor: State of Hawaii (FHWA Funded)

Agency Responsible for Carrying Out Project/Phase:
Hawaii Department of Transportation

OS88 Interstate Route H-1, Corridor Study

Project Description:
Develop a comprehensive analysis study of the entire H-1 corridor, including other parallel State and City facilities to identify future congestion and capacity improvements and priorities for the corridor.

Bicycle and pedestrian facilities will be included when feasible. The parallel roadways to be studied include, but are not limited to:

1. Interstate Route H-1 Freeway, Palailai Interchange to Ainakoa Avenue,
2. Farrington Highway - Palailai Interchange to Waiawa Interchange,
3. Kamehameha Highway - Waiawa Interchange to Keehi Interchange,
4. Moanalua Freeway,
5. Nimitz Highway - Keehi to Ala Moana Boulevard,
6. Dillingham Boulevard,
7. Vineyard Boulevard,
8. Kapiolani Boulevard,
9. King Street, and
10. Beretania Street.

OC9 Seismic Bridge Retrofit

Sites are not yet determined.

Project Description:
Research various bridge plans and files, do site inspections, conduct seismic evaluations, identify alternate schemes for seismic retrofit, and construct retrofit measures. The bridges have not yet been determined.

Project Website: None

Neighborhood(s): Various Locations

Estimated Total Project Cost: $2,100,000
(May include project costs outside of the 4-year TIP and 2 informational years.)

Project Sponsor: City and County of Honolulu (FHWA Funded)

Agency Responsible for Carrying Out Project/Phase:
City Department of Design and Construction

OC26 Traffic Signal Optimization

Project Description:
Optimize traffic signal timing, coordination, and implementation plans to reduce vehicle congestion, travel times, and fuel consumption. Optimize timings for 408 traffic signals located in various areas on Oahu. Tasks include field studies and data collection, implementing computer networks and calibrating for existing conditions, optimizing timing with computer, and implementing and testing timing in the field.

The flashing "don't walk" times on the traffic signals will utilize the slower pedestrian crossing times in the latest Manual on Uniform Traffic Control Devices. Additional roadway widths for bike lanes and paths will be considered in retiming the traffic signals.

Phase 4 areas include Waianae, Lower Ewa Beach, Nimitz Highway (under viaduct)/Mapunapuna, Kapiolani Boulevard/Ala Moana, and East Oahu.

Phase 5 areas include Wahiawa/Schofield, North Shore, Mililani, Waipahu/Kunia, Pearlridge/Aiea/Halawa, Komo Mai Drive, Kalihi Valley, Nuuanu/Liliha/Pauoa, Manoa/Makiki, Kapahulu, Kaimuki, Waialae/Kahala, Kaneohe/Kahaluu, and Pali/Waimanalo.

OC11 Traffic Signals at Various Locations

Project Description:
Install, modify, and upgrade traffic signals islandwide, including Americans with Disabilities Act (ADA) improvements, signs and markings, and interties. The project provides for the safe and orderly movements of pedestrians and vehicles at high-risk intersections. The project upgrades existing intersections, adds left-turn phases, increases signal visibility, improves signal coordination, and provides for ADA improvements. Project work is warranted by the Manual on Uniform Traffic Control Devices (MUTCD) and selected annually by a priority listing.

OC13 Agency-Provided Trips

Project Description:
Establish selected human service agencies as transportation providers serving their own clients who currently ride TheHandi-Van, and provide operating funds for the service. The result of this service by agencies would reduce overall operating costs while improving service quality for riders of both the agency services and those riding TheHandi-Van.

OC15 Honolulu High-Capacity Transit Corridor Project

Project Description:
Plan, design, and construct a fixed guideway system between East Kapolei and Ala Moana Center. The system includes stations and related appurtenances, park-and-ride facilities, a maintenance and storage facility, light metro vehicles, and associated core systems.

Total estimated project cost (in year-of-expenditure dollars) is $5,163,495,000 (excluding Unallocated Contingency amount of $184,186,000): ROW = $125,075,000; PROF SVCS = $933,589,000; CON = $3,360,070,000; EQP = $450,907,000; FINANCE CHARGES = $290,294,000; REL = $3,560,000. The estimated total project cost reflects escalation calculated by FTA's Project Management Oversight Consultant. The estimated local share of total estimated costs (excluding unallocated contingency) is approximately $3,372,675,000 in year-of-expenditure dollars. "PROF SVCS" refers to "Professional Services" and includes all services in FTA Standard Cost Category (SCC) 80: Professional, technical, and management services related to the design and construction of the Project during the preliminary engineering, final design, and construction phases. Includes environmental work; design; engineering and architectural services; auditing; legal services; administration and management by agency staff or outside consultants; professional liability insurance and other non-construction insurance; and professional services related to real estate and vehicles.

OC17 Middle Street Intermodal Center

Project Description:
Design, construct, inspect, and provide relocation funds for Phase 2. Phase 2 is the completion of the Handi-Van parking lot, transit center platform, and bus parking, as well as the parking garage. Transit enhancement elements, such as landscaping, signage, artwork, and bicycle and pedestrian access, are included.

In Revision #9 to the FFYs 2011-2014 TIP, the project was deferred from FFY 2012 to FFY 2015. 23 CFR 450.324(h) requires an inflation factor to be used in the development of financial plans for projects funded with Federal dollars. For purposes of STIP development, the Hawaii Department of Transportation's 2007 policy requires a 4% annual inflation rate assumption. The City recognizes that deferring this project is likely to erode the purchasing power of the project budget. However, additional local match for this project cannot be identified at this time. If necessary, the project scope will be adjusted to meet the budgetary limit, or the project may be phased depending upon the availability of funds at the time of construction.

OC21 Transit Safety and Security Projects

Sites are not yet determined.

Project Description:
Capital improvement projects at various locations will provide safety and security in transit vehicles at future and existing bus stops and transit centers, park-and-ride lots, and bus maintenance facilties.

In Revision #12 to the FFYs 2011-2014 TIP, funds were deferred from FFY 2011 to FFY 2012, and from FFY 2012 to FFY 2013.

23 CFR 450.324(h) requires an inflation factor to be used in the development of financial plans for projects funded with Federal dollars. For purposes of STIP development, the Hawaii Department of Transportation's 2007 policy requires a 4% annual inflation rate assumption. The City recognizes that deferring this project is likely to erode the purchasing power of the project budget. However, additional local match for this project cannot be identified at this time. If necessary, the project scope will be adjusted to meet the budgetary limit, or the project may be phased depending upon the availability of funds at the time of construction.

Project Website: None

Neighborhood(s): Various Locations

Estimated Total Project Cost: $2,877,000
(May include project costs outside of the 4-year TIP and 2 informational years.)

Project Sponsor: City and County of Honolulu (FTA Funded)

OC22 West Oahu Bus and Handi-Van Maintenance Facility

Site is not yet determined.

Project Description:
Construct a maintenance facility for the bus and handi-van operations in West Oahu. The site is not yet determined. Current bus and handi-van maintenance facilities are at their maximum capacity. A third facility is required to accommodate any future expansion of the bus and handi-van fleet.

In Revision #9 to the FFYs 2011-2014 TIP, the project was deferred from FFY 2012 to FFY 2013. 23 CFR 450.324(h) requires an inflation factor to be used in the development of financial plans for projects funded with Federal dollars. For purposes of STIP development, the Hawaii Department of Transportation's 2007 policy requires a 4% annual inflation rate assumption. FINANCIAL PLAN
FFYs 2011-2014 TIP as of Revision #25

The FHWA program is financially constrained, as demonstrated in the following tables. The amount of FHWA funds estimated to be available for projects on Oahu is determined through a cooperative agreement between OahuMPO, HDOT, and DTS. Information on the revenues estimated to be available for the entire State of Hawaii is available in the HDOT's FFYs 2011-2014 STIP, as revised. Refer to Chapter 7 of the TIP for additional information on FHWA and FTA funding sources.
