

**ELIGIBLE OAHU PROPOSALS
REQUESTING TRANSPORTATION ENHANCEMENT FUNDS**

Project Title	Description	Eligible Enhancement Category
Hawaii Capital Cultural District – Pedestrian Enhancement	This project proposes signage and way-finding directories, pedestrian amenities, visitor information centers, and pilot trolley service. <i>Select portions of this project are eligible for Enhancement funds.</i>	Pedestrian and Bicycle Safety and Education Activities
Kahuhipa Street Hydro-modification Device	This project proposes the installation of an in-line storm drain pollutant collector, hydro-modification device to collect pollutants from highway run-off along Kahuhipa Street. <i>Select portions of this project are eligible for Enhancement funds.</i>	Highway Runoff Mitigation
Kalaniana'ole Highway Bicycle Improvements, Vicinity of Waimanalo Beach Park to Kaiona Beach Park	This project proposes the widening of the existing shoulder in both travel directions to accommodate bicycle traffic. Paving will be done only on the widened shoulder, not on the existing travel way. The adjustment of existing utilities and drainage structures will be performed as necessary. All work will be done in the existing State right of way.	Pedestrian and Bicycle Facilities
Kipapa Gulch Bikeway	This project proposes the construction of a shared-use bicycle and pedestrian path through Kipapa Gulch.	Pedestrian and Bicycle Facilities
Kamehameha Highway Relocation at Laniakea Beach	This project proposes the landward relocation of Kamehameha Highway at Laniakea Beach, Kaiwailoa, Oahu. <i>Select portions of this project are eligible for Enhancement funds.</i>	Highway Runoff Mitigation
Leeward Bikeway – Phases I and II	This project proposes paving a shared-use path within the former OR&L right-of-way, beginning at Waipio Point Access Road and ending at Lualualei Naval Road.	Pedestrian and Bicycle Facilities
Meheula Parkway Bicycle Lane	This project proposes lane striping to both sides of the entire length of Meheula Parkway to include a bike lane, bike lane symbols, and bike lane signage.	Pedestrian and Bicycle Facilities

Project Title	Description	Eligible Enhancement Category
Nimitz Highway Beautification	This project proposes landscaping improvements along Nimitz Highway, from the Honolulu International Airport to Waikiki.	Landscaping and Scenic Beautification
Nimitz Highway Bicycle Lane	This project proposes lane striping to Nimitz Highway, in the westbound direction from Waiakamilo Road to Middle Street.	Pedestrian and Bicycle Facilities
Pedestrian Plan	This project proposes development of the Oahu element of the proposed Hawaii Department of Transportation's Pedestrian Plan.	Pedestrian and Bicycle Safety and Education Activities
University Avenue Beautification	This project proposes landscaping improvements along University Avenue, between Varsity Place and the Interstate H-1 on- and off-ramps.	Landscaping and Scenic Beautification
University of Hawaii (UH) Bicycle Planning and Facilities Design Study	This project proposes background research on bicycle planning, safety, and facilities design; development of a plan to improve access, safety, and use of bicycles as a transportation mode at UH; and initial design work in terms of bicycle facilities on the UH campus. <i>Select portions of this project are eligible for Enhancement funds.</i>	Pedestrian and Bicycle Safety and Education Activities
Waimanalo Beach Park Bus Stop Improvement	This project proposes the relocation of an existing bus stop on Kalaniana'ole Highway fronting the Aloha Gas Station / 7-Eleven Convenience store to the edge of neighboring Waimanalo Beach Park, closer to a marked crosswalk.	Pedestrian and Bicycle Facilities
