# Climate Change Transportation Vulnerability Workshop

March 8-9, 2011  
East-West Center

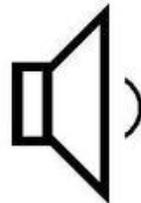

Sponsored by  
Oahu Metropolitan Planning  
Organization  
Federal Highway Administration  
Hawaii Local Technical  
Assistance Program

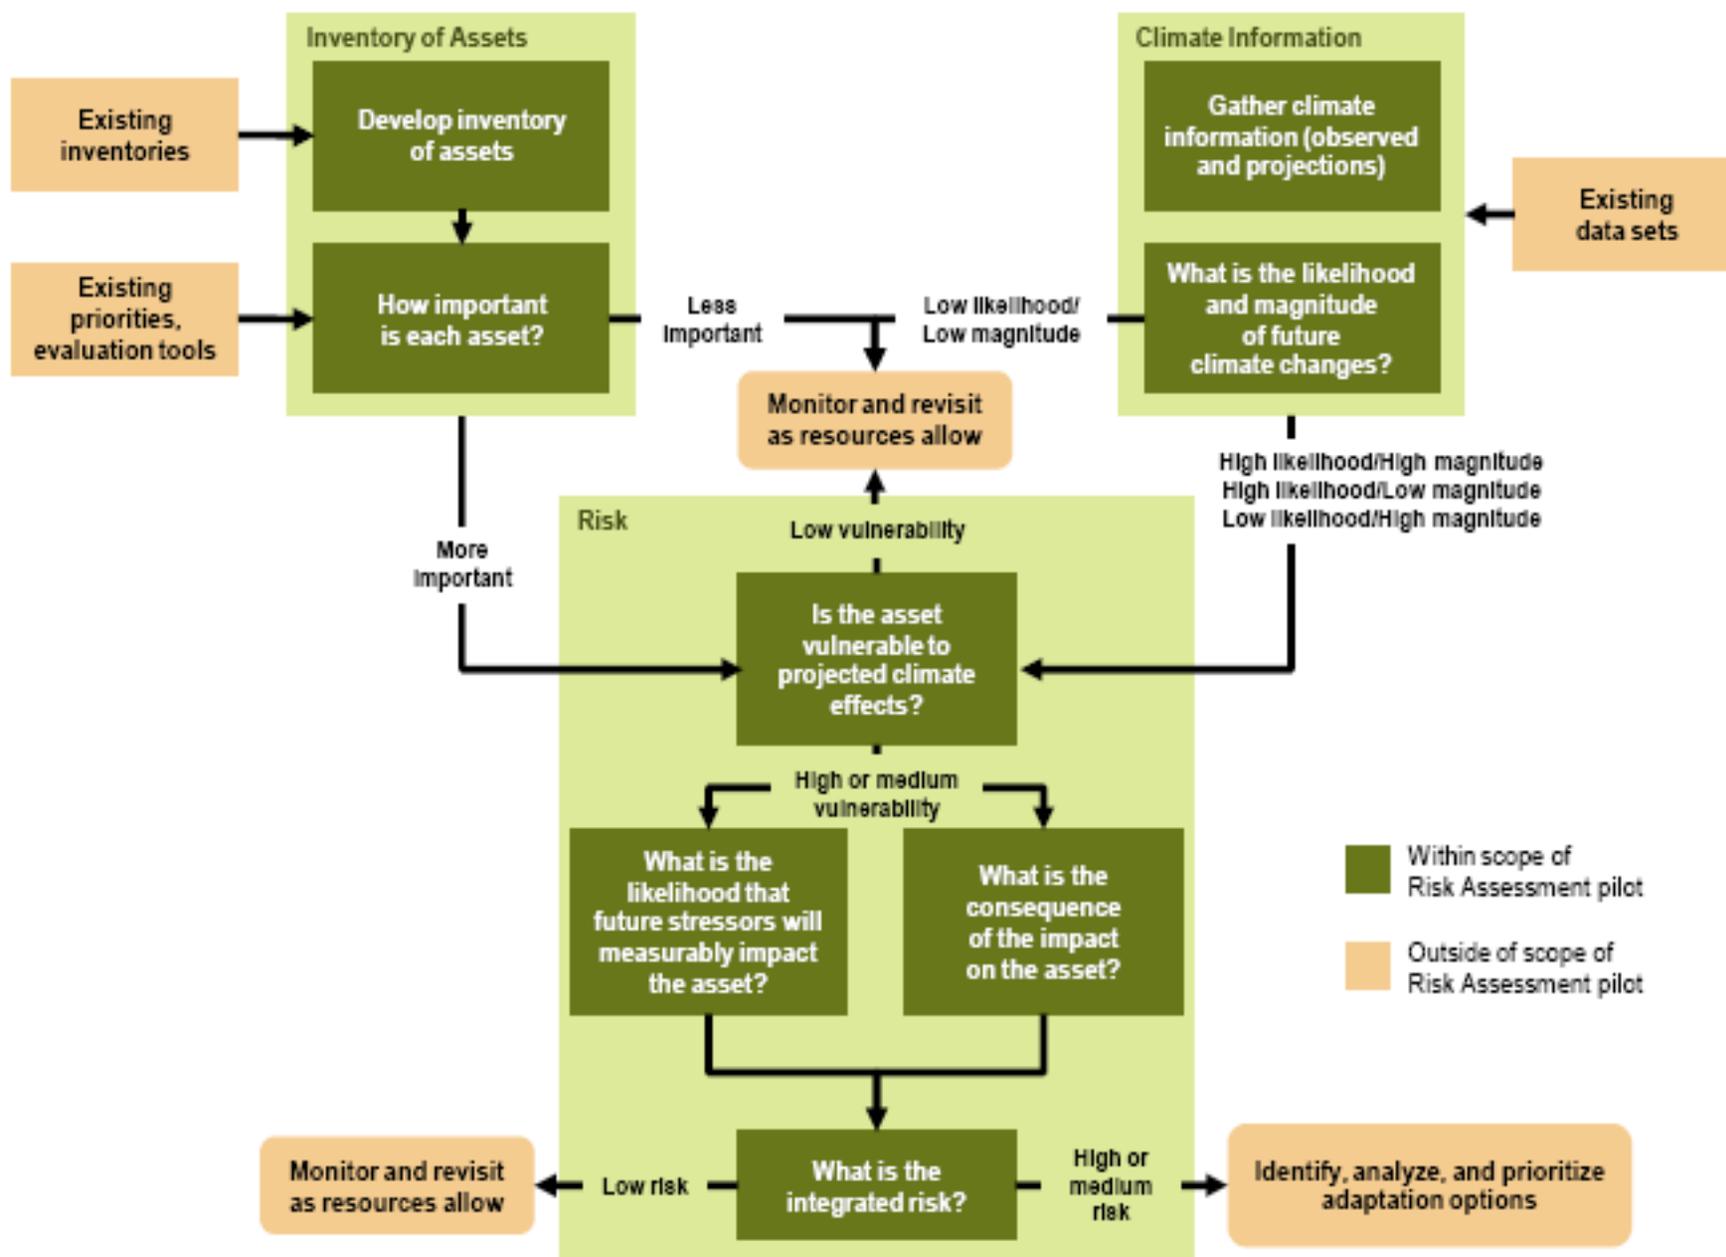

# Aloha & E Komo Mai

# Introductions

- Name
  - Agency or department
  - Title
- 
- **PLEASE  
SPEAK  
LOUDLY**

# Why Are We Here?

- To assess the vulnerability of transportation assets to the impacts of climate change
- To Beta-test FHWA's pilot process
- To discover which climate change variables will be most impactful to transportation
- To decide how much change we should be planning for
- To prioritize transportation assets that we are most concerned about

# We Are Not Here To...

- Decide adaptation or mitigation strategies, measures, or projects
  - We leave that for follow-up planning projects
