Transportation Improvement Program

General Comments

Aloha awakea! As Waianae's Transportation Committee Chair, Waianae Neighborhood Board Member and concerned member of this community, I feel it my kuleana to testify against the MPO's decision to take Project 50 off the ORT's 2040 plan. Please reconsider this decision, as our community so desperately needs more projects like these to be funded and executed. In addition, I'd like to make sure project 54 becomes a High Priority project as to help ease our traffic woes as soon as possible.

A hui hou Malama Pono,

Marc Pa'aluhi
