| Save Hawaiian Railway   |
| Comment   |
| I am a former Employee and Volunteer at the Hawaiian Railway Society. Projects 206 and 304 have recently come to my attention in that they would not only interfere with the OR&L Right of Way (Which is on the National Register of Historic Places) but also shut down the Hawaiian Railway's Train yard (on the State Register of Historic Places), effectively ending operations and shutting down the Museum. I have rode on those trains since before I can remember and shutting them down to build a road extension would be a travesty if not a crime. I am pleading for whoever is in charge leave the Railway alone. |
