*O'ahu Regional Transportation Plan
(ORTP)*

OahuMPO Staff

What is the O'ahu Regional Transportation Plan?

- Federally-required document; updated every 5 years
- Establishes a long-range vision for surface transportation on O'ahu
- Identifies projects and programs to help achieve that vision
- Current 2040 ORTP approved in April 2016

ACRONYM	NAME	CONTENT
TIP	Transportation Improvement Program	Short-Term What We Build
ORTP	O'ahu Regional Transportation Plan	Long-Term What Our Vision & Goals Are
OWP	Overall Work Program	Work elements (e.g. Planning studies) not construction projects

—

DTL is our primary consultant

DTL is well-known & respected for their engagement with the native Hawaiian communities on a variety of projects

polihouli what low wala lalehu kag

DTL is a Hawaiian Strategy Studio

A WHAT?

Wong's Way to Mayfie 1

2020 | 100% | 100%

100%

We've never heard of a Hawaiian Strategy Studio either..

..but we felt Hawai'i needed one. DTL (*detah*) is a multidisciplinary studio that helps businesses, governments, organizations, and communities navigate change. Our unique approach, moves clients from where they are to where they need to be.

We've built a respected reputation within our community as a creative interpreter of culture through planning and design. Our deep understanding and knowledge of Hawai'i's sensibilities and sensitivities has resulted in successfully facilitating dialog, bridging perspectives and developing appropriate collaborative solutions to both challenging issues and exciting opportunities within our community.

OUR CLIENTS

KAMAHAMAKA SCHOOLS

KŌKUA

DTL is committed to our community and culture and giving back through in-kind kōkua. 20 percent of our time is spent providing in-kind kōkua to support projects, non-profits and causes that champion the community and culture.

- Election of Chair and Vice Chair

- “The election of Chair and Vice Chair will be undertaken the first agenda item of the first meeting of each calendar year.”

2. November 28 public meeting

**IWILEI /
KAPĀLAMA**

**Rising to the Challenges
of Resilience & Adaptation**

**Wednesday, November 28
6:00 pm • Aloha Tower Marketplace
HPU Multipurpose Room 3
Validated parking at Piers 5 & 6**

Presentation by 

Piet Dircke
Global Leader of Water Management
Arcadis - Rotterdam, Netherlands

The Iwilei and Kapālama rail station areas have been designated for major population growth through transit-oriented development (TOD). However, sea-level rise and deficient infrastructure systems challenge this long-term vision.

The City is beginning to develop strategies for investing in the Iwilei/Kapālama district that prioritize resilience. Please help us kickoff this effort with a public presentation by Mr. Piet Dircke—Dutch water expert and a global leader in urban resilience, flood protection, and climate change adaptation. He will share best practices in this dynamic field and concepts we can explore for O'ahu.

For more information, please visit: www.honolulu.gov/tod or call 768-8012.

If you require special assistance, auxiliary aid and/or service to participate in this event (i.e., sign language, lip reader, interpreter for language other than English, or wheelchair accessibility), please call 768-8000 or email info@hono.tod.org at least three business days prior to the event.

Public is invited!
Today at 6pm, Aloha Tower
Marketplace HPU Multipurpose Rm 3
*The Iwilei and Kapālama rail station
areas have been designated for major
population growth through transit-
oriented development (TOD).
However, sea-level rise and deficient
infrastructure systems challenge this
long-term vision.*

Mr. Piet Dircke will share best
practices with public officials,
community leaders, and residents

More info at www.honolulu.gov/tod.

involves transportation options in major ways!

4. UH DURP Survey on travel and coastal flooding

Department of
Urban and Regional Planning

UNIVERSITY
of HAWAII
MĀNOA

Researchers in Urban and Regional Planning at the University of Hawaii Manoa are conducting a survey about how people's travel is being affected by coastal flooding and sea level rise on the island of Oahu. Please support by participating in the survey and sharing the information with others. The survey results will help better understand how travel is being affected by the coastal flooding so as to develop strategies for climate adaptation in future.

The unique survey can be accessed via:

<http://wikimapping.com/wikimap/SLRTransHI.html>

IX. Tentative Schedule of Next Meeting

No December 2018 meeting

X. Adjournment

End time
