### Executive Director's Report

#### *Accomplishments and Progress*

1. As I had reported last month, we are currently conducting outreach events for the Oahu Regional Transportation Plan's (ORTP) first phase of public involvement. During this phase, we are asking the public for their transportation goals and priorities for the future. At this time, we have attended **13 community events** and engaged **1,266 people**. We plan to attend a number of community events through April. For a full list of scheduled events, please visit the ORTP webpage:

We are appreciative of any suggestions TAC members may have for events in their own community or events we can partner together with their respective organizations to reach out to the public about the community vision and goals. If you have any suggested events, please contact Carolyn or Kiana.

2. OahuMPO completed the FY2018 Single Audit in February 2019, and there were no major deficiencies. The Report is available on-line at:
