**VI. New Business**

**A. 2045 Oahu Regional Transportation Plan (ORTP) Short-Range DTS Project and Program Submissions, Evaluation and Scoring**

OahuMPO staff will present an overview of the projects and programs submitted by the City and County of Honolulu Department of Transportation Services for consideration for short-range Federal transportation funding, along with the evaluation and scoring of new projects.

**B. 2020 Congestion Management Process Report**

All metropolitan planning organizations (MPOs) with a population greater than 200,000 are required to have a Congestion Management Process (CMP), including OahuMPO. The purpose of a CMP is to identify the process for collecting congestion related data, develop performance measures used to report congestion data to the public, and guide funding toward projects and strategies which most effectively address congestion. The CMP presentation will cover the 2020 CMP report.

The CMP Dashboard is available for review at the following link:

The ORTP is OahuMPO's long-range transportation plan. One of the requirements for MPO's long-range transportation plans is an Existing and Forecasted Conditions Report. Information included in the report ranges from socio-economic, commuting, and employment data, as well as information about our existing transportation system. This information is used to inform the selection of projects and programs for the 2045 ORTP. The presentation will cover the Existing and Forecasted Conditions Report.
