ORTP UPDATES

Transportation Revenue Forecast

OahuMPO and its consultant, Jacobs are finalizing OahuMPO's Transportation Revenue Forecast, which forecasts the amount of money, that Oahu can reasonably expect to be available to spend on transportation projects and programs through 2045. This forecast is important because it helps to guide which projects and programs are selected for funding. In compliance with federal law, the costs of projects and programs selected for funding must be within the forecasted revenue amount.

A [final draft](#) of the revenue forecast will be presented at the February [Citizen Advisory Committee](#), [Technical Advisory Committee](#), and [Policy Board](#) meetings. View the respective webpages for information to join the meeting (meeting information will be published at least one week before the meeting).
