

OahuMPO Public Participation Plan Summary Comments

The PPP has been in circulation for comments for this lengthy time period due to setbacks caused by COVID-19 and staff turnover, along with revisions. Although major revisions were not made, the time lapse in the PPP discussion has warranted the need for the document to be reviewed and comments solicited.

2	Various parts of the plan	Policy Board: Recommendation to clarify that the product diagrams in the Plan document specifically refer to the public participation portion of each product's process	Thank you for your comment.
